

SINAN ANWAR ALEKAR

COMPUTER ENGINEERING STUDENT | FULL-STACK DEVELOPER | AI & CYBERSECURITY ENTHUSIAST

Email: sinanalekar9192@gmail.com Phone: [+91 9175196309](tel:+919175196309) Location: Rajewadi, Mahad, Raigad, Maharashtra, India

GitHub: github.com/sinanalekar LinkedIn: [linkedin.com/in/sinan-alekar-90171825a](https://www.linkedin.com/in/sinan-alekar-90171825a) Portfolio: [Portfolio Website](#)

Building open-source projects focused on Artificial Intelligence, Defensive Cybersecurity, Ethical Hacking fundamentals, modern full-stack software development and cross-platform application development.

PROFESSIONAL SUMMARY -

Computer Engineering student with hands-on experience building full-stack web and Android applications using Python, React, FastAPI and Firebase. Passionate about Artificial Intelligence, Defensive Cybersecurity and Cloud Technologies, with practical experience developing secure authentication systems, RESTful APIs and production-oriented software. Independently developed cross-platform applications including Sentinental IX, an AI-powered cybersecurity operations platform, and IX:X, an Android and Web learning platform. Continuously expanding technical expertise through real-world software projects, modern development practices, ethical hacking labs and defensive security research.

EDUCATION -

- B.Tech in Computer Engineering** -2026 – Present (*Status: Pursuing*)
- HSC (Science)** - Maharashtra State Board -Completed 2025
- SSC** - Maharashtra State Board -Completed 2023
- Gap Year** - Skill development, projects and cybersecurity preparation - (2025-2026)

Focused on skill development, software projects, and cybersecurity preparation, including foundational OSCP-oriented learning.)

EXPERIENCE -

Freelance Technical Support & Online Research - 2023 Remote

- Delivered remote technical support for Windows, Android and web-based applications.
- Diagnosed software and hardware issues while providing practical technical solutions.
- Conducted technical research and produced implementation guides and technical documentation.
- Independently developed, deployed and maintained modern software applications.
- Managed multiple technical requests while maintaining quality and timely delivery.

TECHNICAL SKILLS -

- Programming:** Python, JavaScript, TypeScript, SQL, HTML5, CSS3, Bash, JSON
- Frontend:** React, Next.js, Vite, Tailwind CSS, Responsive Web Design
- Backend:** FastAPI, REST APIs, RESTful API Design, Firebase, Firestore, PostgreSQL, Neon PostgreSQL, SQLite, SQLAlchemy, OAuth 2.0, JSON Web Tokens (JWT), API Documentation, Authentication
- Networking:** HTTP, HTTPS, DNS Fundamentals
- Mobile:** Android, Progressive Web Apps, Firebase Cloud Messaging, Android Notifications, CallStyle Notifications, Background Services, Cross-platform Development
- DevOps:** Git, GitHub, GitHub Actions, Docker, Vercel, CI/CD
- Cybersecurity & Ethical Hacking:** Linux Administration, Web Application Security, Network Security Fundamentals, Secure Authentication and Authorization, Role-Based Access Control, OAuth 2.0, JWT Authentication, Secure Session Management, CSRF Protection, HTTPS/TLS, Security Headers, REST API Security, Secure API Design, OWASP Top 10, Vulnerability Assessment, Vulnerability Management, Burp Suite (Practical Labs), Wireshark (Practical Labs), Nmap (Learning), OSINT Fundamentals, Threat Intelligence Fundamentals, Incident Management Concepts, Risk Assessment Fundamentals, Security Documentation, Security Best Practices, Defensive Security Concepts
- Artificial Intelligence:** Prompt Engineering, LLM Integration, OpenAI APIs, Gemini APIs, AI Application Development, Workflow Automation, AI Workflow Design, AI-assisted Development, AI-powered Software Development
- Soft Skills:** Problem Solving, System Design, Debugging, Technical Documentation, Team Collaboration, Continuous Learning
- Languages:** English, Hindi, Marathi, Urdu

CORE COMPETENCIES -

Full-Stack Development • Cross-platform Application Development • AI-powered Software Development • RESTful API Design • Secure Authentication • Defensive Cybersecurity • Ethical Hacking Fundamentals • Cloud Deployment • Responsive UI Development

DEVELOPER TOOLS -

Visual Studio Code, Git, GitHub, GitHub Actions, Docker, Postman, Firebase Console, Vercel Dashboard, Android Studio, Chrome DevTools

PROJECT HIGHLIGHTS -

- **Sentiental IX** - AI-powered defensive cybersecurity operations platform for secure authentication, asset management, vulnerability management and incident workflows.
- **IX:X Android & Web** - Cross-platform Android, Progressive Web App and Web learning platform integrating Firebase services, native Android functionality and AI-assisted learning.
- **Portfolio Website** - Responsive Next.js portfolio showcasing verified projects, skills, resume and public case studies.

SELECTED SOFTWARE PROJECTS -

Sentiental IX

Website: sentiental-ix.vercel.app [↗](#) **GitHub:** github.com/sinanalekar/Sentiental-Ix [↗](#)

Developed and continue to enhance Sentiental IX, a modular defensive cybersecurity platform designed to centralize authentication, asset management, vulnerability management, alert handling, incident workflows, session controls, audit history and reporting. Built using modern web technologies with an emphasis on secure architecture, scalability, maintainability and production-oriented development.

Technologies Used: React, Next.js, FastAPI, PostgreSQL, Neon PostgreSQL, Firebase Authentication, SQLAlchemy, REST APIs, Docker, GitHub, GitHub Actions, Vercel

Key Contributions:

- Developed secure role-based authentication and authorization workflows.
- Engineered responsive dashboards for defensive security operations.
- Built RESTful backend APIs using FastAPI.
- Integrated Firebase Authentication with secure session controls.
- Implemented database-backed assets, vulnerabilities, alerts, incidents and audit history.
- Developed AI-assisted defensive cybersecurity workflows.
- Built reporting and operational visibility features.
- Containerized and deployed the platform using Docker, GitHub Actions and Vercel.

IX:X Android & Web (Version 1.1.4)

Website: ix-zeta.vercel.app [↗](#) **GitHub:** github.com/sinanalekar/ix [↗](#)

Developed IX:X, a cross-platform educational platform supporting Android, Progressive Web App and Web deployments from a shared architecture. The platform integrates Firebase services, AI-assisted study guidance, role-restricted workflows, admin controls, push notifications and native Android functionality to deliver a consistent experience across devices.

Technologies Used: React, TypeScript, Firebase Authentication, Firestore, Realtime Database, Android, Progressive Web App, Firebase Cloud Messaging, GitHub, Vercel

Key Contributions:

- Developed Android and Web applications from a shared codebase.
- Implemented the Android-native Dora incoming-call interface.
- Built lock-screen CallStyle notifications.
- Integrated Firebase Cloud Messaging for background and terminated application states.
- Implemented missed-call timeout and duplicate-call protection.
- Developed responsive cross-platform interfaces.
- Integrated Firebase Authentication, Firestore and Realtime Database.
- Built role-restricted Firebase workflows and admin controls.
- Added AI-assisted study guidance and push-notification workflows.
- Developed native diagnostics and in-app update functionality.
- Automated deployments using GitHub and Vercel.

PROFESSIONAL INTERESTS -

Artificial Intelligence • Defensive Cybersecurity • Ethical Hacking • Application Security • Full-Stack Software Development • Cloud Computing • Open Source • Android Development • System Design

CURRENTLY LEARNING -

Advanced Python Development • FastAPI Architecture • Secure API Design • AI-assisted Software Development • Docker and Containerization • Cloud Deployment • OSINT Techniques • Defensive Security Operations • Ethical Hacking Fundamentals • OSCP-oriented Preparation
